

Template Information

- Please review the templates carefully when preparing your artwork. Art needs to be designed on a layer separate from the template. Note: Some files are multiple page documents, so be sure to review all pages. Also, make sure guides are turned on in the application you are using. Typically, guides are turned on by clicking the "View" menu, scrolling down to "Grids & Guides" and clicking "Show Guides".

File Formats/Applications

- .indt, .indd, .inx, .idml - Adobe InDesign
- .eps - Adobe Illustrator (can be rasterized for use in Photoshop)
- .psd - Adobe Photoshop
- .pdf - Adobe Portable Document Format

.qxt - QuarkXPress 6 (We do not support the use of Quark.) *We do not support the use of Quark XPress. If you absolutely must use Quark, please place PDF template on separate layer in your Quark document.*

- Exporting press PDF for submission, please hide template layer before exporting
